

NURUL HIDAYAH BT LEONG KAM SOI

IT FRESH GRADUATE

Bukit Beruntung, Selangor, Malaysia | dayah.itwork@gmail.com | 60196880861 | <https://dayahtech.github.io/Portfolio>

SUMMARY

Diploma in Information Technology graduate (awaiting official certificate) with hands-on experience developing full-stack web applications using Node.js, Express.js, and MongoDB. Built multiple projects including a forum system, service booking platform, and e-commerce website with user authentication and interactive web application features. Familiar with AI-assisted development workflows, with the ability to review, debug, and adapt generated code to meet application requirements. Eager to apply and further develop technical skills in a real-world environment.

WORK EXPERIENCE

AI Content Development Intern, Waix Technologies Sdn. Bhd. **December 2025 - February 2026**

- Assisted in generating content using AI tools (ChatGPT, Grok, HeyGen, and Pippit)
- Organized and structured educational materials
- Edited video content using Canva and CapCut
- Prepared and uploaded content to internal platform
- Followed structured workflow to complete assigned tasks

PROJECTS

CyberStyle E-commerce Website **September 2024 - October 2024**

- Developed a full-stack e-commerce web application using Node.js, Express.js, EJS, HTML, CSS, JavaScript, and JSON-based storage
- Built product browsing, shopping cart, checkout, order history, and product review features
- Implemented user authentication, profile management, and session-based access control
- Added reward point functionality and deployed the application using Render

CloudClean Cleaning Service Website **December 2024 - February 2025**

- Developed a full-stack cleaning service booking website using Node.js, Express.js, MongoDB, EJS, HTML, CSS, and JavaScript
- Implemented user authentication, booking management, booking history, and review functionality
- Integrated PayPal Sandbox for payment simulation and testing
- Added image upload functionality and managed application data using MongoDB

VisionSphere Forum Website **July 2025 - October 2025**

- Developed a full-stack forum web application using Node.js, Express.js, MongoDB Atlas, EJS, HTML, CSS, and JavaScript
- Implemented user authentication with email verification, bcrypt password hashing, and session handling
- Built forum features including posts, comments, polls, reactions, notifications, and community management
- Added role-based moderation, profile customization, and media upload functionality, and deployed the application using Heroku

SKILLS

- Technical Skills: JavaScript, HTML, CSS, Node.js, Express.js, MongoDB, SQL, Git, Java, C++, VB.NET
- Tools & Technologies: Visual Studio Code, GitHub, MongoDB Atlas, Render, Heroku
- Soft Skills: Responsibility, Problem-Solving, Time Management, Willingness to Learn

EDUCATION

Diploma in Information Technology, Vision University College **July 2023 - March 2026**

- CGPA: 3.80
- (Awaiting Transcript)

ADDITIONAL INFORMATION

- **Languages:** Malay (Native), English (Fluent), Chinese (Conversational)
